<main>

Why me ?

- Worked with Brands like Godrej, Good Knight, Baskin Robbin, Raw Pressery, Bblunt Etc
- Keep my code clean and organised by using SASS,
- Keep the website load time to minimal by using task runner like Gulp
- Prefer using frameworks like bootstrap which save the development time
- Love to do custom animations
- SEO friendly code by using Semantic Elements
- Great in Problem Solving Skill
- Spend more time on research compared to coding part which make the actual coding much easier faster and error free
- Give training to my junior developers to improve their skills
- Use Github for version control and code backup
- For security I do validation on both client as well as server side
- Write responsive code that fits all sizes of device screens
- Keep practicing my skills, read programming blogs and watch videos to maximize and grow my knowledge base.
